SUMMARY

I'm a passionate and young Software Engineer packing **more than 3+ years** of hands-on experience as a front end developer. Yet willing to work with backend technologies as well to expand my current skill set.

I'm Looking for a challenging environment where I can prove my ability to solve complex problems and bring value to both the customers and the business.

EXPERIENCE

Asia Startup

Tehran - Iran

Front End Developer

October 2023 – January 2024

- Planned, developed, tested, and maintained responsive websites and web applications.
- Working with TypeScript, Material UI (MUI), Ant Design, TailwindCSS, REST api.
- Implemented Medical E-Commerce Dashboard Panel with React.
- Implemented Medical website with Next.js.
- Built reusable components that used in all projects.

Freelancer
